

# Photography 101

## SUPPLY LIST

You will need the following to participate in this workshop:

- DSLR (digital single lens reflex) camera
- Manual for your camera. If you do not have your manual, many are available online. A google search should help you find yours.
- A 3-ring binder for your inspiration notebook and class handouts.

**Please note:** This workshop will not alienate beginner photographers. Barbara is very mindful of all skill levels and is excited to reach out to scrapbookers that might not be new to photography, but are anxious to start taking great pictures!!
