

It's All About Me

Aaron Morris aka "Sir Scrapalot" | Master Supply List

To prepare for Aaron's class, please gather the following:

- A notebook or journal to record your responses to the journaling prompts. Even a word processing document would be great.
- A camera for completing the photo prompts. It doesn't need to be a DSLR, or even a point and shoot. Camera phones will work just as well for what we'll be doing.
- If you are choosing to complete the layouts digitally, a photo editing software program such as Photoshop or Photoshop Elements (you can get a 30 day free trial version of Photoshop [here](#)).
- Your own thoughts and dreams!

Note: This class will work for digital scrapbookers, paper scrapbookers, or hybrid scrappers. Our focus will be on getting our thoughts, feelings, and memories incorporated into our pages!

Big Picture Classes and The Daily Digi have teamed up to bring you digital scrapbooking classes. We invite you to learn more about The Daily Digi and their products by visiting their [website](#).
