

Beginner Blends

Using Templates for Simple Blended Photos

Jenn Lindsey | Supply List

To prepare for Jenn's class, please gather the following:

- PC or Mac with Photoshop or Photoshop Elements installed. Please note that the templates used with this class are created for use with Adobe Photoshop and Photoshop Elements only. You can download a free 30-day trial version of Photoshop at Adobe.com.
- digital photos that you'd like to use in your layout (2a recommended).
- digital papers and various elements.

Note: This class doesn't require specific digital supplies other than the included templates, therefore you can shop your own digital stash, or purchase new supplies that you wish to use.

I look forward to showing you my techniques for easily blending photos in this fun class, and can't wait to see what you create!

Jenn Lindsey

Big Picture Classes and The Daily Digi have teamed up to bring you digital scrapbooking classes. We invite you to learn more about The Daily Digi and their products by visiting their [website](#).
