

Moving into Manual Mode

Elisha Snow | Master Supply List

To prepare for Elisha's class, please gather the following:

- any SLR digital camera (an SLR camera is one that has interchangeable lenses)
- memory card
- your camera manual. If you don't still have this, or can't find it anywhere, go to the manufacturer's website and download it. Or go to Google and type in the word "manual" along with your camera's make and model. For example: "manual Canon Digital Rebel XTi."
